

# Get Your Spend Together

Gain Actionable Insights to Drive Savings and Achieve Goals

## THE PROBLEM:

Data about your spend with suppliers is everywhere. It's messy and inconsistent. It has historically required a major effort to consolidate and cleanse so that Procurement can rely on it to make important decisions or answer key questions, such as:

- What are the spend details for this category over the past 3 years?
- What is our spend history with this supplier, so we can better negotiate?
- What trends did we see in certain categories, locations, or supplier types?
- How are we benchmarking in areas such as supplier diversity/ESG?

## SpendHQ: Robust Spend Intelligence That Improves Strategic Planning & Results

350+ global customers

\$6 trillion+ in spend analyzed

Backed by 20+ years of expertise

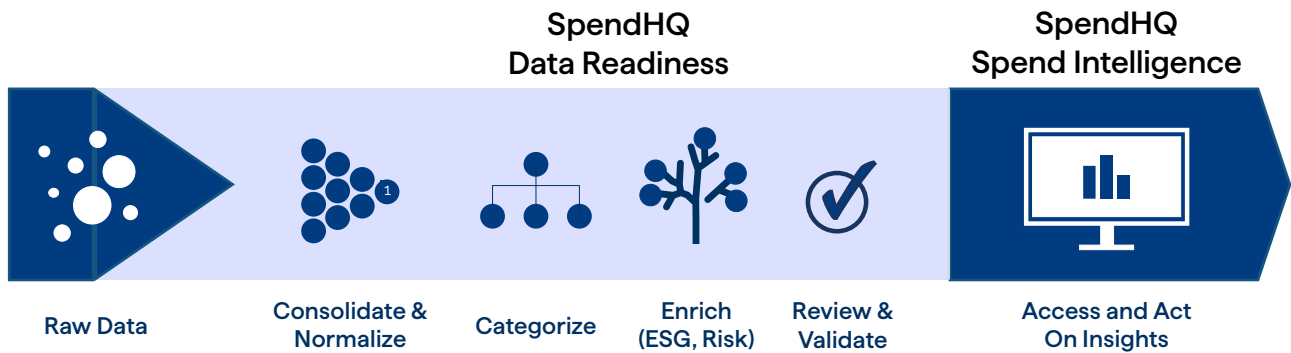

## KEY FEATURES:

- **Spend Profiles** – Easily drill-down into spend, categorized to your custom, sourcing-level taxonomy.
- **Suppliers** – Get insights into your supply base, including new and favored suppliers, and create watchlists to proactively monitor spend anomalies.
- **Compliance** - Manage your preferred supplier program, reduce rogue spend, and identify opportunities to drive savings and value.
- **Strategy** - Set a roadmap to determine procurement focus areas and prioritization, leveraging market benchmarks.
- **ESG** – Advance goals in supplier diversity and greenhouse gas reductions, leveraging data enrichment and reporting.
- **Insights** – View automatically-surfaced updates across key focus areas, cutting through the noise to be more agile and proactive.

# A Rapid Path to Better Spend Intelligence

SpendHQ's SaaS solution embeds an AI-driven, best practices data preparation process. While our solution handles the hard data work, your business spends more time discovering and acting on your spend insights.

## Helping You Advance Procurement Maturity

### STRONG ROI:

- Increase your spend compliance by 3X on average.
- Increase your spend under management, typically to 87%+.
- Find new cost savings and value.

### COMPREHENSIVE COVERAGE:

- Get guaranteed 97% spend classification and obtain data enrichment, such as supplier risk and ESG, to enhance your benchmarking and insights.

### IMPROVED DECISION-MAKING:

- Deliver a trusted, central team hub for spend insights and reporting. Get automated insights and visibility in just a few clicks into what you and stakeholders need to see.

### FLEXIBLE FOR YOUR BUSINESS:

- Implement to meet your needs for spend classifications, data refreshes, and integrations with data systems.
- Configure dashboards, supplier watchlists, reporting, and more.
